

OPEN FORUM	<ul style="list-style-type: none"> . John brought up the concern for safety during Mass. It had been suggested that the doors be secured just before Mass began. After consulting with the local fire departments and police agencies, this is unlawful. The doors will not be locked. We will wait for a directive from the diocese. Joan said that she had done an informal survey of the churches in Avon. The 4 she spoke with are locking all but one door and this one will have an attendant. Those locked have push bars so those inside can leave safely. . Sean shared that he had been a council representative in the past for 6 years.
